Ariel's Crown

Cutting intended for grown-ups only.

1. Print out the crown on cardstock or regular paper and cut it out

2. Put glue on the end tabs. Place each extension on the appropriate end and glue into place. Measure the crown around the child's head, then tape or glue the ends of the extensions together. You can cut off part of extension, if necessary.

3. Use bobby pins to secure the crown to the hair for a sturdy hold.
