FROZEN
 SING-ALONG EDITION

EASTER EGG CRAFT

Create Your Very Own FROZEN Easter Eggs!

You will need:

- Adult supervision
- Paints (various cool colors)
- Craft Glue (non-toxic)
- Paper Plates (water resistant)
- Water (in a bowl)
- Glitter (silver or translucent)
- Your Creativity!

To Decorate:

1) Boil eggs in salt water for 15 minutes. Then, remove from stove and fill your pot with cold water and allow to cool. 2) Create a workspace on a table with newspaper. 3) Create a plate palette of colors by adding small dabs of your selected colors to a plate leaving the center open. 4) Add glue (2 teaspoons) to the center of the plate. 5) Add water (2 tablespoons) on top of your glue. 6) Use your fingers to mix the water and glue in the center of the plate. Don't worry if the mixture gets into the colors. That's the idea! Now, it's time for some fun! 7) Cover your egg in glue water, then start dabbling your different color paints onto your egg. You can even roll your egg around the plate to create swirling effects. Play around with it! 8) Bring on the glitter! Once your egg is coated in color begin adding some glitter, as much or as little as you like.

This is *your* special creation!

Have fun experimenting!

Elsa & Anna Egg Holder

MORE EGG
 HOLDERS
 ON THE
 NEXT PAGE!

To Make:

1) Have an adult help you cut out the attached Easter Egg holders. 2) Wrap loosely into a circular shape, creating a ring that your Easter Egg will stand in. 3) Secure each Easter Egg holder with tape at the indicated area.
