

Doc McStuffins' Big Book of Boo Boos

Create Doc McStuffins' Big Book of Boo Boos to find out what's wrong with the stuffed toys!

Material List

- Colored paper (8.5" X 11")
- Zip ties
- Big cereal box
- Scissors
- Glue
- Single-hole puncher

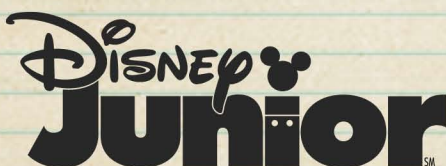

Note: cutting intended for grown-ups only.

1. Take the cereal box and measure it against the colored paper. Cut the cereal box to match the dimensions of the colored paper (8.5" X 11").
2. Glue the same-sized colored paper and cut cereal box together. The colored paper will be the book's cover while the cereal box adds thickness and sturdiness to it. Do the same for the back cover.
3. Print the heart template (page 2 below), cut it out, and glue it to the book's front cover.
4. Print the coloring pages (pages 3-12 below).
5. Print as many of the blank page (page 13 below) as you'd like to fill your Big Book of Boo Boos.
6. From top to bottom, stack the front cover, coloring pages, and back cover.
7. Create five holes on the left side of the stack by using the single-hole puncher. Make sure to even out the spacing between the holes.
8. Once the holes are created, use zip ties bind them together.

Now your preschooler can diagnose their stuffed animal patients' boo boos and color the pages!
