

Nemo Party Hat

Cut out the entire party hat. Use a craft knife to cut along the dashed lines around the text. Add ribbon, streamers, or pom-poms by attaching them to the inside of the top of the hat. Next, wrap the illustrated side of the hat around the blank, white side and secure it with tape or glue. Using the indication holes as a guide, punch them out and attach a string so that your party hat will stay on your head! Your hat is now complete.

These mini hats are great for kids, adults, or stuff animals!
