

# Parent Tips

Disney Mix parents are curious and engaged!

## Get Curious!

- ✓ Check out who your child is communicating with—and how they're communicating, too.
- ✓ Find out if your child's mobile device has security settings you want to use.
- ✓ Help set up your child's Disney Mix account and talk to them about when to use it, who they should add as friends, and when to ask for help!

## Stay Engaged!

- ✓ Play Disney Mix with your child! (It might open up a new avenue of communication.)
- ✓ Remind your child that things they send can be easily shared by others without them even knowing.
- ✓ Disney Mix has safety features, but talk about the consequences of sending inappropriate texts.
- ✓ Know your child's passwords and make sure they don't share them with friends.
