

Disney THE LION KING

HOW TO DRAW TIMON

Step 1:

- Start with a circle – the starting point of his head
- Draw a curved peanut shape underneath the circle to define his body
- From his back, draw a line down to define his frame

Step 2:

- From the front of his body, draw a line down to define the rest of his frame

Step 3:

- To define Timon's arms and body, draw a line straight out from between the circle and peanut shape
- Add a line to define the other arm along side your first arm
- Draw a small box underneath to define the hair under Timon's front arm. Do the same on his back arm, but offset it slightly
- Move down to create his tail, by drawing a long arched line out from the lowest corner of his body frame

Step 4:

- To define Timon's head, squash the shape of the circle slightly by giving it a gentle diamond shape
- Draw a circle for his nose in the lower left portion of the gentle diamond shape
- Add the smile lines for Timon's mouth

- Create Timon's eyes by drawing two oval shapes above the nose. Don't forget to add his pupils

Step 5:

- To add Timon's hand, create a small angled box at the end of the lines for his arms
- Don't forget to add Timon's fingers at the end of the box, but remember he's got a big Grub in his hands
- To add the grub, draw a big round, squishy shape with the head above Timon's hand and the round body extending below
- Add Timon's feet but starting at the lower corner of his body frame and add a curved line for his leg and a straight line for the bottom of his foot. Repeat this on the other side of his body frame
- Fill in his legs by drawing a line off of the tummy area and connect down to the bottom of his feet
- Add long triangle shapes to define his feet

Step 6:

- To define Timon's face, add his eyebrows by working off of the eye circles
- Soften the shape of Timon's face by adding a slight cheek line to the left side of his face

- Fill in his nose and don't forget the bit of glare to his shiny nose
- Add 3 or 4 hairs along the upper right side of his head, making the shapes different lengths
- Add his ears by following along your original circle line, dropping down below his head in half circles on both sides. Don't forget to draw the inside part
- Define his arms by adding hanging hair lines to the lower portion
- Define Timon's toes and give a bit more volume to his back

Step 7:

- Add the stripes to his back – just a few
- Define his tail a bit more by shading-in the upper tip
- Shade-in Timon's toes
- Finish off Timon's tasty grub by adding in the eyes & fangs for the mouth then add a line down the lower portion to define its body.

FINISH UP!

Go back and erase the lines that helped you shape the character. Then, darken the lines you want to show.
Congratulations on drawing Timon!
